MASFA Dinner Meetings – Get Yourself Connected

Thursday, June 6, 2024, 5 – 8 pm. Our dinner meeting is the best place in the Northern Virginia, Washington, and Baltimore region to network with people in the cold-formed steel industry: Contractors, suppliers, manufacturers, and designers are always part of the mix. Our dinners provide you the opportunity to:

- 1) Network with industry colleagues during our cocktail hour.
- 2) Learn about important industry topics (many of which include continuing education credits) from various industry experts.

Topic: How CFS is Helping Shape the Future in Data Centers

1.0 PDH

Speaker: Andrew Newland, P.E., Principal
ADTEK Engineers, Inc.

Continuing Education Credits Available: 1.0 Engineering PDH Credits

Agenda Highlights: Data Centers are becoming increasingly prevalent in the Mid-Atlantic and nationwide. Cold-formed steel framing and cold-formed steel strut members have become integral pieces in the construction of the data centers. This presentation will discuss the nuances of the use of interior and exterior cold-formed steel framing in data centers as well as structural ceiling supports using strut systems. We will discuss what does and does not need to be engineered and give you the tools you need for a successful data center project.

MASFA is offering this education and networking opportunity to help you succeed.
