MASFA Dinner Meetings – Get Yourself Connected

Thursday, March 14, 2019, 5 – 8 pm. Our dinner meeting is the best place in the Northern Virginia, Washington and Baltimore region to network with people in the cold-formed steel industry: Contractors, suppliers, manufacturers, and designers are always part of the mix. Our dinners provide you the opportunity to:

- 1) Network with industry colleagues during our cocktail hour.
- 2) Learn about important industry topics (many of which include continuing education credits) from various industry experts.

Topic: Demystifying EQ Studs – A Panel Discussion

1.0 PDH

Speakers: Don Allen, PE, Director of Engineering – Super Stud Building Products
Chuck Webb, PE, Technical Sales Manager – ClarkDietrich Building Systems
Nicholas Citino, Regional Sales Director – Marino\WARE

Continuing Education Credits Available: 1.0 Engineering PDH Credits

Agenda Highlights: Until the past 10 years or so, no engineering was required, and everyone just knew what was necessary for interior, non-structural framing. But that is changing. Manufacturers have developed various proprietary studs that may benefit the contractor and the project over the use of standard drywall studs. These new products have become known as “EQ” studs in the industry, with several different products out there from multiple manufacturers. Confusion has ensued, and there are many instances now in which architects, contractors, structural engineers and building officials are searching for help to understand and get guidance on the proper use of these new non-structural products. This session will

consist of a panel of experts and manufacturer’s representatives who will enlighten attendees with knowledge and their experiences with the “EQ” products, as well as answer questions.
