## MASFA Dinner Meetings – Get Yourself Connected

**Thursday, March 24, 2016, 5 – 8 pm.** Our dinner meeting is the best place in the Northern Virginia, Washington and Baltimore region to network with people in the cold-formed steel industry: Contractors, suppliers, manufacturers, and designers are always part of the mix. Our dinners provide you the opportunity to:

- 1) Network with industry colleagues during our cocktail hour.
- 2) Learn about important industry topics (many of which include continuing education credits) from various industry experts.

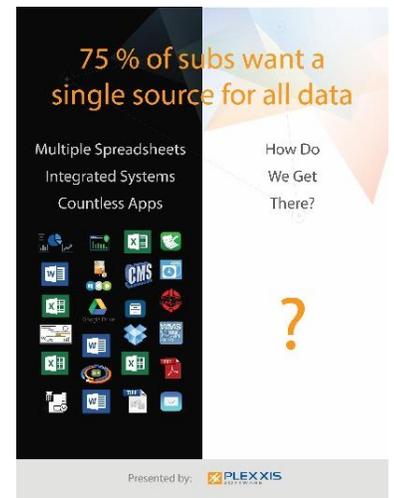

## Topic: Construction Software - Outpacing Technology, Trends and the Rising Expectations in the Trade

1.0 PDH

**Speaker:** Chad Pearson, Dir. Of Business Development - Plexxis  
**Continuing Education Credits Available:** 1.0 Engineering PDH Credits

**Agenda Highlights:** New technologies in construction can assist in project efficiency and accuracy. Software for contractors, including CFS, drywall and ceiling contractors, can not only assist in estimating, but also material procurement, project management, labor and resource planning and document management. This discussion and Q&A focuses on trends that affect wall and ceiling contractors, the rising demands in the trade and bringing clarity to the tech/app bubble in construction. Strategies used by top performers to capitalize on trends and technology will be highlighted. Even architects and engineers can learn from this discussion by learning the issues and challenges contractors face to better provide clear direction and design.
