MASFA Dinner Meetings – Get Yourself Connected

Thursday, September 26, 2019, 5 – 8 pm. Our dinner meeting is the best place in the Northern Virginia, Washington and Baltimore region to network with people in the cold-formed steel industry: Contractors, suppliers, manufacturers, and designers are always part of the mix. Our dinners provide you the opportunity to:

- 1) Network with industry colleagues during our cocktail hour.
- 2) Learn about important industry topics (many of which include continuing education credits) from various industry experts.

Topic: Lightweight Board, Heavyweight Performance

1.0 PDH

Speakers: Andrew Schmidt, Senior Researcher, Acoustics - USG
Kyle Flondor, Senior Researcher, Fire - USG
Kenneth Wagner, Product Manager, Wallboard – USG

Continuing Education Credits Available: 1.0 Engineering PDH Credits

Agenda Highlights: As the construction industry continues to evolve, dealers, contractors, engineers and architects are tasked with finding opportunities to work safer, smarter and more efficiently without putting their business or project at risk. To stay ahead, builders need the most innovative materials available. This presentation will focus on design trends and material technologies in steel-framed construction, the importance of balancing fire and acoustics and practical do's and don'ts. It will also touch on a new lightweight Type X gypsum panel that not only answers the demand for more sustainable products, but also reduces jobsite stocking and hanging complexity while promoting greater worker safety and productivity.
