Dear CFS Industry Member:

On behalf of the Mid-Atlantic Steel Framing Alliance, we would like to ask you for your membership and support of our organization in 2022. Without the generous contributions from you and other local companies interested in cold formed steel framing, our non-profit organization would not be sustainable.

We would also like to take this opportunity to once again thank our 2021 sponsors:

The last two years have been a challenge for all of us. MASFA has not been able to hold many of our quarterly or annual events **So, for those who have paid membership and sponsorship fees for 2020 and 2021, we are going to automatically keep your memberships and sponsorships in place throughout 2022. You will not have to pay again for this coming year.** For anyone new who would like to join or sponsor in 2022, we understand that the economy is posing a tremendous challenge for each of us in our individual businesses. For this reason, our membership and sponsorship rates for 2022 will again remain at the rates that we had back in 2020 in the hope that you will still find it beneficial to sponsor this year.

Your membership dues and sponsorships fuel the engine that keeps our organization running. MASFA cannot operate without the support from local businesses and national companies with local interests in the Mid-Atlantic region. Please help us continue to provide a strong environment for educating the design and construction community on cold-formed steel framing.

Enclosed you will find information on membership and sponsorship levels and all the benefits your membership and sponsorship entitles you. If there is any other way that we can assist the industry, please do not hesitate to contact me. Thank you for your consideration.

Yours truly,

Jeffrey M. Klaiman, PE
MASFA President – ADTEK Engineers

2021 MASFA Board of Directors

Paul Gallagher – CJ Coakley (Vice President)
Nader Elhadj, PE – FrameCAD Solutions (Treasurer)
