Dear CFS Industry Member:

On behalf of the Mid-Atlantic Steel Framing Alliance, we would like to ask you for your membership and support of our organization in 2023. Without the generous contributions from you and other local companies interested in cold-formed steel framing, our non-profit organization would not be sustainable.

We would also like to take this opportunity to once again thank our 2022 sponsors:

PLATINUM SPONSORS

GOLD SPONSORS

SILVER SPONSORS

The last several years have been a challenge for all of us. But now MASFA is back in full-swing and has been able to fully resume our quarterly in-person dinners in Virginia and Maryland as well as our annual TopGolf event

We understand that the economy is posing a tremendous challenge for each of us in our individual businesses and uncertainty for the future has us all a little concerned. For this reason, our membership and sponsorship rates for 2023 will again remain at the rates that we had back in 2020 in the hope that you will still find it beneficial to sponsor this year.

Your membership dues and sponsorships fuel the engine that keeps our organization running. MASFA cannot operate without the support from local businesses and national companies with local interests in the Mid-Atlantic region. Please help us continue to provide a strong environment for educating the design and construction community on cold-formed steel framing.

Enclosed you will find information on membership and sponsorship levels and all the benefits your membership and sponsorship entitles you. If there is any other way that we can assist the industry, please do not hesitate to contact me. Thank you for your consideration.

Yours truly,

Jeffrey M. Klaiman, PE
MASFA President – ADTEK Engineers
